Kathmandu, Nepal

EDUCATION

A levels - Science

Trinity Internation College
(2020-2022)

BSc (Hons) Computing

leeds beckett university
(2024-2027)

SKILLS

- Programming Language
- Version Control(GitHub)
- Problem-solving
- Team Collaboration
- Communication Skills
- Time Management
- Attention to Detail

LANGUAGE

- English
- Hindi

PROFILE

Motivated and detail-oriented BSc (Hons) Computing student with hands-on experience in 3D image annotation and a strong foundation in programming using Python, JavaScript, Java, and C++. Passionate about AI and data-driven technologies, with a growing interest in machine learning and data training. Eager to contribute to real-world AI projects while expanding technical and analytical skills.

WORK EXPERIENCE

CloudFactory

Since Jan 2025

3D image Annotator

- Working at Buildots where I feed high-quality annotated data to AI systems.
- Ensure data consistency and accuracy by following strict annotation guidelines.
- Collaborate with QA and data teams to refine annotation workflows and tools.

PROJECTS

- University Chatbot (Python): Developed a chatbot to assist students with university services.
- Turtle Graphics Program (Java): Created graphical programs to Learn programming basics.
- Student Department App Service (C++): Built an app for managing student information and services.
- Recipe Website (React): Developed a recipe website with search and save functionality.
- Website (HTML, CSS, JavaScript): Built a responsive personal website.
